# *Health And Safety*

Field inspections involve a certain degree of risk. Inspections of wastewater treatment plants, manufacturing plants, laboratories and mines are each associated with various hazards. A safe field inspection depends on the recognition, evaluation and control of hazards. Cal/OSHA regulations and established safety policies are continually being updated. This course/manual has been assembled as a "hands-on" tool for all personnel conducting field activities.

**November 2, 2006  
8:00 am - 12:00 p.m.  
Coastal Hearing Room  
California EPA Building  
1001 I Street, Sacramento, CA**
